

## Joining a 2018 Park2Park Team

### How to join a team

1. When you register for the Park2Park, the first screen of the entry process will ask you which event you would like to participate in. Make your selection, selecting from either the OPEN or U16 category (if applicable)
2. Select **Join Team**
3. Search for the team

**Tip:** The search box works with partial matches and it's often easier to find your team by putting in less information. (e.g. if your team is called "Body Joy Fitness Hub", just put "Body" in the search box to return all matches).

4. Once you have found the team, enter the password (if applicable) into the team password box and press the **green join**
5. Once logged into your team, follow the prompts to complete the entry process

### Race Kits:

Check with your team manager to find out if they have opted for the team race kits to be bundled as a team or individual collection. **If a team bundle is chosen race kits will not be able to be collected individually.**

### Race Kit Collection:
